ON 'CHANGE.

AMERICAN wheat at Liverpool yes terday was quiet but steady, with poor demand, holders offering moderately. Corn firm, with fair demand.

CLOSING prices of May options at Chicago yesterday: Pork, \$11 224. Lard, 6.174c bid. Clear rib sides, 5.624c. Corn, 414c asked. Wheat, 841c bid. Oats, 33c asked.

REPORT of Grain Elevator yesterday Wheat received, none; withdrawn, none; in store, 3057 bushels. Corn received, 2203 bushels; discharged, 645 bushels; in store, 34,580 bushels. Oats received, 3319 bushels; withdrawn, 4167 bushels; in store, 46,439 bushels.

A LETTER was received here yester day from Liverpool by a buyer for export, stating that if receipts continue to be as liberal as they have been thus far, cotton will have to de cline to 41d before spinners take hold and that the demand will not be active even at that figure.

The New York Post, in its cotton review, says: "Unfavorable advices from Liverpool and Manchester, with continued comparatively heavy port receipts, could not fail to depress our market for future deliveries. Prices dropped without interruption and ranged at the third call, September to January excepted, 9-100 lower than yesterday. May brought 9.10c; June, 9.20c; July, 9.27c; August, 9.33c; Sep-tember, 9.15c; November, 8.02c. Fut-ures closed quiet and steady, leading months 9-100 lower than yesterday.

Visiross on 'Change yesterday: D. Galloway, Allenton, Tenn.; Miss Netta Farris, Lexington, Ky.; Mrs. Olive Lyles, Miss Jessie M. Carwer, M. F. Blount, Evansville; Miss Emma Van Vechten, Cedar Rapids, Ia.; Thos. Orgill, New York; T. E. Long, Louisville, Ky.; Frank Scott, Rosedale, Miss.; W. C. Callecott and wife, Coldwater, Miss.; W. W. Harris, Allsborough, Ala.; E. H. Blair, Albauy, N. Y.; Alfred Bouvier, St. Louis; R. W. Barber, New Orleans; Miss Ray Henning, Arlington, Tenn.; Thos. Skinner, New Orleans.

The following from the New York Commercial Bulletin of the 17th describes the cotton situation in that market: "The bureau report was looked upon by the 'bulls' as in a measure favorable to their view of the situation, but apparently had no effect as an actual bid, while on the other side the influences continued at least as depressing as before. Liverpool gave no comfort, the private advices by mail and wire from the Continent continue to indicate a general indifference, and in many cases a refusal to Chairman Slaughter, ex-officio even bid until well into spring, while trustee for the First District, under the Bolton will, yesterday sued out an little encouragement. There is, to be little encouragement. There is, to be sure, a great deal of 'firm holding' of supplies at primary points, but the Southern markets are still inclined to an easy tone in many cases, and in-creased offerings at lower rates, in part from new sections, are suggested. Not a few of the trade also commence to feel some apprehension regarding the condition of affairs at home con-sumptive sections, as advices from the Eastward represent considerable trouble already growing out of the recent floods, while the strike at the Amos-keag mills, it is feared, may be only preliminary to more extended and serious labor difficulties, a contingency that recent events in various parts o country show to be worthy of more than passing consideration.

Scrofula of Lungs Relieved.

I am now forty-nine years old, and have suffered for the last fifteen years with a lung trouble. Several members of the family on my mother's side of the house had died with consumption, and the doctors were all agreed in their opinion that I had consumption also. I had all the distressing symptoms of that terrible disease. I have spent thousands of dollars to arrest the march of this disease; I have employed all of the usual methods, not only in my own case, but in the treatment of other members of my family, but temporary relief was all that I obtained. I was unfit for any manual labor for several years. By chance I came into possession of a pamphlet on "Blood and Skin Diseases," from the office of Swift Specific Co., Atlanta, 6s. A friend recommended the use of Swift's Specific, claiming that he himself had been greatly benefited by its use in some lung troubles. I resolved to try it. About four years ago I commenced to take S. S. S. according to directions. I found it an invigorating tonic, and have used about fifty bottles. The results are most remarkable. My cough has left me, my strength has returned, and I weigh sixty pounds more than I ever did in my life. It has been three years since I stopped the use of the medicine, but I have had no return of the disease, and there are no pains or weakness felt in my lungs. I do the hardest kind of mechanical work, and feel as well as I over fult since I was a boy. Tree, I know, are wonderful statements to make, but I am honest when I say that I owe my existence and health to-day to Swift's Specific. It is the only medicine that brought me any permanent relief. I do not say that Swift's Specific will do this in every case, but most positively affirm that it has done this much for me, and I weed be recreant to the duty I owe to suffering humanity if I failed to bear this cheerful testimony to the merits of this wondertul medicine. I am well known in the city of Montgomery, and can refer to some of the best ritisens in the city.
